Aqua Publica Europea

The mission of Aqua Publica Europea is to promote public water management at the international level.

This involves a wide range of activities, including:

- Fostering **best practice exchange and knowledge-sharing** among members through our [Working Groups](#).
- Representing the **position of public water operators** and contributing to [international policy-making](#) in the water domain, in dialogue with institutions and civil society.
- Promoting **knowledge development and diffusion of the topics related to water governance**, through the implementation of [international workshops](#), [research projects](#) and other activities.
