**Aqua Publica Europea**

---

The Association and its members promote the improvement of water governance and management approaches through their participation in international projects.

### Smart. Met - PCP for Water Smart Metering

<dl class='spip\_document\_1157 spip\_documents spip\_documents\_right' style='float:right;'>

The **Smart.Met** (PCP for Water Smart Metering) project is funded under the European Union **Horizon 2020** programme for research and innovation. Building on the results and lessons learned from the FP7 [WaterPipp](#) project, this project aims at driving the **development of new technologies to deal with smart metering data collection and management through a joint Pre-Commercial Procurement (PCP)**.

The project website will be available very soon. Stay tuned!

### WaterPipp - Water Public Procurement for Innovation Policies

<dl class='spip\_document\_226 spip\_documents spip\_documents\_left' style='float:left;'>

APE was a partner in the **WaterPiPP** project, funded under the **7th EU Framework Programme** for Research and Innovation.

The aim of **WaterPiPP** was to explore new innovation procurement methodologies in the water sector in a context where the European innovation potential in the water sector is blocked by a number of bottlenecks and barriers.

The project ended in December 2016. [Please visit the project website](#) for more information and to consult the deliverables.

# EIP Action Group FinnoWater

<dl class='spip\_document\_1033 spip\_documents spip\_documents\_right' style='float:right;'>

The **European Innovation Partnership on Water (EIP Water)** is an initiative that aims at facilitating the development of solutions to water challenges. With this objective in mind, a series of [Action Groups](#) have been created.

The [Action Group FinnoWater](#) seeks to **implement innovative financial instruments and mechanisms** to support both the public and the private sector in water innovation. Thus, this Action Group intends to explore, develop and implement new approaches to increase financial flows in the water and water-related sectors, particularly by incentivising public innovation.
