## Why join APE?

---

Aqua Publica Europea strives to promote performance in public water management through sharing and exchanging good practices in this field. Aqua Publica Europea is the only international organisation in the water sector whose membership is wholly and exclusively composed of public operators.

By joining APE, you will be part of a growing community that shares common strategic approaches and values. You will have the opportunity to:

- 1. share and exchange good practices in relation to technical issues and management services, through the APE [working groups](#)**
- 2. be a part of the international [water community](#) and contribute towards defining European and international water sector policies**
- 3. network with other institutional and academic actors in the water sector through international projects, seminars and other events**

For more information on the benefits and conditions of joining us, check the "[How to apply](#)" section or contact us at [info@aquapublica.eu](mailto:info@aquapublica.eu).
